**LONG TERM. PROVEN.**  
**3 styles + 7 strategies**  
**ONE PEREGRINE.**

### Philosophy

Over the long term, earnings growth is the primary driver of total shareholder returns. We manage your portfolio as a single diversified growth company producing an underlying portfolio free cash flow growth rate of at least 12% and translating that into strong secular absolute and relative returns.

*Our objective is to translate*  
**HIGH PORTFOLIO FREE CASH FLOW GROWTH**  
*into*  
**CLIENT RETURNS**

The Large Cap Growth composite is compared to the Russell 1000® Growth Index. The benchmark is most reflective of the objectives and holdings of the style. The composite includes all fully discretionary portfolios invested in Peregrine’s Large Cap Growth strategy. Net performance includes the effect of advisory or performance fees, while gross performance does not. Both gross and net performance reflect the reinvestment of dividends and interest, and the deduction of brokerage or other commissions, and any other expenses that a client would have paid or actually paid, other than custodial fees. Performance results for the period 1/1/83 through 1/1/88 are for accounts managed by John Dale while he was employed by Peregrine’s former parent company and managed the same strategy. Mr. Dale retired on 6/30/15. Past performance is no guarantee of future results. As with any investment there is always potential for gains as well as the possibility of losses.
